# 2025-1

Our most important accomplishment in 2025 was the move from our shared office space with the National Fallen Firefighters Foundation to a facility solely occupied by the MSFA. The new location at 2138 Priest Bridge Court, Suite 9 in Crofton, MD is outfitted to house not just many supplies and properties of the MSFA but provides a location for our staff to provide the services necessary for our association and provides a conference, meeting room for up to 15 people.

During 2025 the biggest challenge was our continued effort in rebuilding the volunteer ranks that had been depleted by the effects of COVID.

# 2025-2

Our Recruitment and Retention Committee continues its work working with member companies and the Next Generation Committee is assisting with the new motivators to increase ranks.

Our Scholarship Committee manages the MSFA Volunteer Fire and EMS Continuing Education Fund which is comprised of several funding sources that assist Maryland volunteers to offset their higher education expenses, 16 students benefited from this fund in 2025.

A major program for the health and wellbeing of our volunteer firefighters is the cancer screening initiative passed by the Maryland legislature. Our Legislative Committee spent countless hours working with our volunteer companies and associations in informing and assisting them in applying for the cancer screening grants to obtain the tests. While we experienced some hiccups from MDH the program was reinstated and is now being refiled.

# 2025-3

The MSFA along with our partners worked with the Fire Prevention Commission to have the Fire Prevention Code for 2024 adopted.

The MSFA and partner training agencies are continuing to work with the Maryland Fire Rescue Education Training Commission to address the critical shortage of emergency services instructor trainers.
