# Fall Recovery & Prevention Program

FRaPP is a wraparound service that supports patients after a fall by connecting them to tailored community resources.

- Goal:** Reduce future fall risk and aid recovery after discharge from Shock Trauma.
- Eligibility:** Patients with traumatic injuries from falls, primarily those discharging home.
- Services:** Personalized resources (home modifications, aging services, rehab providers, food access) and follow-up calls from a fall recovery navigator.

**FRaPP**  
Fall Recovery and Prevention Program

# Trauma Recovery Clinic

## Who gets referred?

- All victims of violence (GSW, Stabbing, Assault) discharged home from TRU ONLY

## How and Where are they seen?
