

Required AED Equipment Checklist

The following equipment should be kept with the AED machine at all times:

- ☐ 2 sets of defibrillator chest pads (electrodes).
 - ☐ Optional - pediatric electrodes in addition to adult electrodes for locations serving children under 8 years of age.
- ☐ Disposable gloves
- ☐ 1 extra battery set, if the AED uses replaceable batteries other than long life lithium batteries.
- ☐ Cables (if your AED has removable cables)
- ☐ The QR Code to the Public Access AED Use Report
