Cars can OVERHEAT rapidly . . .

AND

So can CHILDREN left in them!

Tips for Preventing Child Heatstroke in Cars

• Never leave your child alone in the car.
• Create reminders and habits so you know exactly where your child is or should be.
• Look before you lock.
• Always keep unattended car doors and windows closed and locked.
• Take action if you see a child left alone in a car; call 9-1-1 and follow their directions.

Each year an average of 37 US children die from overheating while alone in cars.
